

KILLEARN LAKES ELEM Survey Results 2010-11

The Leon County Schools Surveys for parents, students and teachers/staff/others administered during Spring, 2011 contained eight sections, each focusing on a unique component of the school environment. Although the district specified that students of certain grade levels and their parents must be surveyed, schools were allowed to survey other grade levels as well. The following table lists the percentages of parents, students and teachers/staff/others who responded favorably and unfavorably to each question. Student questions were worded to fit the level of the students and were similar in content to parent and teacher questions. Only the parent and teacher questions are listed below. Responses of "Don't Know" and blanks were excluded from the calculations. Staff and others are included in the teacher percentages. Please consult your school for a full report.

The total number of respondents are: P = 184 S = 334 T = 74

<i>A = Percentage Agreement</i> <i>D = Percentage Disagreement</i>		Parent A D		Student A D		Teacher A D
